\* total of eight 15-min pump sessions

\*\* for more information, please refer to the Instructions for Use.

## WHO WE ARE

Nestled in the Swiss Alps is the home of Ardo medical. This picturesque setting is where all of Ardo's breast pumps are meticulously assembled by hand, providing you the best Swiss-quality breast pump available. In the late 1960s, Ardo founder co-founded the world's first breast pump company and brought the first electric breast pump from Switzerland to the United States. To this day, Ardo is a family- owned and family-run company.

## REPLAY BUTTON

Memory Plus function saves your complete pumping session, settings and time, so you can repeat with every use. Additional functionality will be added in future MyArdo App versions.

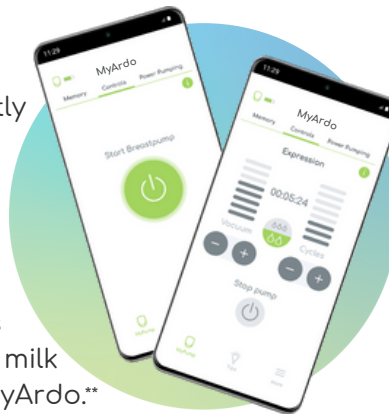

## THE PERSONAL POWER PUMP™

Alyssa Hands-Free is the first and only wearable breast pump with an automated power pumping function that mimics cluster feeding, which increases milk supply.

## SMART PHONE OPERATED

Control Alyssa Hands-Free directly from your phone using the MyArdo app. In future versions, you will be able to record pumping sessions and keep track of milk output through MyArdo.\*\*

\*\* additional functions available in future MyArdo app releases

## Additionally Available

## HANDS-FREE COLLECTION CUPS

Ardo Hands-Free Double Pumpset is compatible with ALL Ardo electric breast pumps (Alyssa, Bellis, Carum, Calypso, Calypso Pro).

## THE PERSONAL NICU PUMP™

Our hospital-grade Alyssa Hands-Free breast pump with NICU capabilities is the WORLD'S FIRST personal NICU pump.\*\*\* Alyssa allows mothers of preemie babies to take their personal NICU pump home. Alyssa quickly establishes milk supply so that mothers can have peace-of-mind that their babies get their breastmilk. With all its abilities, Alyssa is the most comfortable pump on the market.

\*\*\* more than 100 cycles per minute at 115 mmHg vacuum
